

Guestbook Ideas

There are many fun alternatives to the traditional guestbook concept. A wedding back in 2009 had a vintage typewriter set up alongside jam jar posies – guests were invited to type their notes and then put them into the tray.

My specially commissioned obelisk guestbook looks good both in outside areas and in the Great Hall

A more recent wedding had a wishing tree, on which guests hung their notes.

Lisa created her own guestbook –taping small brown envelopes into a book into which guests’ inserted hand written notes
