

## **Styling Guide and Price List 2012**

Welcome to the Brympton House Styling Guide and Price List for 2012.

In conjunction with the wedding planner and the team of house florists I work with every bride [and groom!] to find a way of styling this lovely family home that works for them.

Brympton is a wonderfully romantic house to style; a family home [albeit a rather grand one] full of character, history and beauty. Flowers, candles and beautiful accessories all go towards ensuring that your wedding at Brympton House is a magical experience.

In terms of styling ideas I have two resources available to brides:

- The weekly Brympton House newsletter [which is sent out to all booked brides] contains a post from me in each edition. I normally concentrate on a particular look or theme each week or a topic of interest such as the use of outside lighting.
- My mood boards which I upload onto the Brympton House blog.

My archived newsletters and mood boards can be found on the Brympton Blog. Please go to:

**<http://brymptonhouse.wordpress.com>**. Under categories select Ellie's styling pages or Mood Boards

Although this guide is arranged as a set of 'packages' none of them are set in stone – if you opt for the entry level for example but are getting married off site then you can divert the flowers and props that would have been put into Castle House into the Orangery or Great Hall or opt to light up the outside of the house instead.

I am also happy to produce a bespoke quote with each item individually costed – although this nearly always works out to be more expensive than opting for one of the packages!
